

P100
Single Channel Display Unit

Features:

- Single Channel display
- Display Temperature and Emissivity
- Large digit can be seen from afar.

Performance:

- Response time: 51mSec
- Data input RS422 \ RS232

Electrical specifications:

Input power:

220VAC/50Hz and 110VAC/60Hz

Mechanical specifications:

- Dimensions HxWxD 144x144x170 mm
- Weight ~ 1.0 Kg

Ambient condition:

- Operating Temperature 0-45°C 32-113°F
- Operating Humidity 10-90% (non-condense)

P300
Multi Channel Display Unit

Features:

- Touch screen display
- Multi Channel display, for all sensors on line. Sensors may be connected to one single display
- Graphical and Numerical display

Performance:

- Response time: 0.15 sec

Electrical specifications:

Input power: 21-28 VDC
Power consumption: 220mA@24VDC

Mechanical specifications:

- Dimensions HxWxD 204x48x180 mm
- Panel cutout dimension 192x138 mm
- Weight ~ 0.8 Kg

Ambient condition:

- Operating Temperature 0-45°C 32-113°F
- Operating Humidity 10-90% (non-condense)
